SUMMARY

Frontend Developer with **4+ years** of experience building production web applications with **React, TypeScript, and Next.js**. Focused on **reusable component architecture**, accessible interfaces, and **complex interactive UI**. Experienced in collaborative frontend development, working closely with designers, backend engineers, and other frontend developers.

EXPERIENCE

Frontend Developer 10/2025 - Present
Confidential (NDA)

- Building and maintaining production **React/TypeScript** interfaces within a component-driven architecture.
- Developing **reusable UI components** and contributing to shared frontend architecture.
- Working on **interactive data visualizations** and complex UI states.
- Improving frontend consistency, accessibility, and maintainability across shared components.
- Collaborating with designers and backend engineers to deliver production features.

Frontend Developer 06/2025 - 09/2025
Multiverse 111 Ltd

- Refactored the registration flow using **React Hook Form and Zod**, improving validation consistency and maintainability.
- Worked in a **monorepo** with shared components, i18n, API integrations, and CMS-driven content..
- Contributed to **PWA** improvements, including offline support and push notification research.
- Created **technical documentation** to improve developer onboarding and knowledge sharing.

Frontend Developer 07/2023 - 06/2025
Lunera ↗

- Delivered **client-facing websites** from initial requirements and design through production.
- Translated design prototypes into responsive, reusable interfaces with high visual fidelity.
- Implemented **interactive UI and animations** while maintaining performance and accessibility.
- Collaborated closely with designers and clients to turn business requirements into frontend solutions.

Frontend Developer 04/2022 - 07/2023
Alpha Profit

- Contributed to the development of an **internal analytics dashboard** for monitoring key performance metrics.
- Implemented **user authentication, interactive data tables, and data visualizations.**
- Integrated frontend interfaces with **backend APIs** and handled data-driven UI states.
