SUMMARY

Frontend Developer specializing in React and Next.js, with hands-on experience in building responsive and accessible web applications. Skilled in working in cross-functional teams, writing clear documentation, proactively introducing new technologies to improve development workflows, transforming design prototypes into interactive web experiences while collaborating closely with designers and backend teams. Passionate about delivering performant solutions that balance user needs with business goals.

EXPERIENCE

Frontend Developer 10/2025 - Present
Confidential (NDA)

- Developing and maintaining React-based interfaces.
- Building reusable UI components and improving existing frontend architecture.
- Working with TypeScript, React, and modern frontend tooling.
- Collaborating with cross-functional teams.

Frontend Developer 06/2025 - 09/2025
Multiverse 111 Ltd

- Refactored and optimized the registration flow by migrating forms to React Hook Form + Zod, improving validation consistency and maintainability.
- Explored PWA implementation (push notifications, offline mode) to enhance mobile accessibility.
- Worked in a monorepo setup with shared components, i18n translations, API integrations, and CMS-based content.
- Authored and maintained project documentation, simplifying onboarding for new developers.
- Took a proactive role in researching and presenting new frontend technologies, sharing findings with the team.

Frontend Developer 07/2023 - 06/2025
Lunera ↗

- Built and maintained the company website with a focus on responsive design, performance optimization, and interactivity.
- Developed multiple client websites from initial request to launch, focusing on frontend implementation and business-specific requirements.
- Translated design prototypes into high-quality code, ensuring pixel-perfect UI and smooth collaboration with designers.
- Applied modern frontend practices to deliver accessible and user-friendly applications.

Frontend Developer 04/2022 - 07/2023
Alpha Profit

- Became a part of the creation of an internal dashboard that streamlined access to key performance metrics, improving data retrieval speed and overall team efficiency.
- Implemented user authentication, interactive data tables, and graphs, improving usability and functionality.
- Collaborated closely with cross-functional team members to ensure seamless integration of features while maintaining high coding standards and best practices.

EDUCATION

International Relations/Regional Studies 09/2018 - 07/2022
Russian State University for the Humanities - Bachelor's Degree

SKILLS

HTML/CSS/JavaScript
Next.js
React.js
TypeScript
Tailwind CSS
Version Control (Git)
API Integration
Monorepo
Internationalization (i18n)
UI Animation (GSAP, Framer Motion)
Teamwork
Documentation & Knowledge Sharing
Problem Solving
Agile/Scrum
